

listen to the sun / her rays are stars of wisdom /
they'll teach you how to give let snails &
caterpillars nibble on your leaves / only nibble /
share yourself a little / don't poison all who seek
your refuge if a human picks you / wilt / they
don't deserve your beauty if they take you without
asking sing to the bees / they'll come to feed &
spread your seed / give but don't hesitate to
receive root yourself / speak to soil / express your
needs / remind yourself - you are important don't
forget / bloom bright / don't be shy / your time is
brief
